

SCOPE OF APPLICATION of our QUALITY, ENVIRONMENTAL and ENERGY MANAGEMENT SYSTEM

Created in accordance with DIN EN ISO 9001:2015, DIN EN ISO 14001:2015 and DIN EN ISO 50001:2018

The management systems for quality, environment and energy at NOON GmbH cover the site at Talstraße 6 in Limbach-Oberfrohna, including all compliance obligations. The scope includes the following points

- Customised and in-house development of circular knitwear and finished parts
- Knitting of circular knitwear and finished parts
- Finishing of circular knitwear, finished parts and woven fabrics
- Distribution of circular knitwear for clothing and home textiles as well as for technical applications
- (Further) processing of contract yarn and contract goods/fabrics according to customer requirements, distribution of the same
- Purchase of necessary raw materials as well as operating and auxiliary materials
- Handling the raw materials, operating supplies and auxiliary materials used
- Operation of plant and machinery to achieve the company's objectives

The scope of application refers to the specified internal and external topics as well as the requirements of interested parties. No area is excluded.

If operational processes make it necessary, tasks can be outsourced to external companies. We select the companies to which contracts are awarded very carefully and always bear in mind that they should also work according to standardised specifications and principles. Within the scope of our access options, we endeavour to influence the external company in this respect, but cannot guarantee implementation.
